

A3 EXPLORING EARLY CHILDHOOD DEVELOPMENT: THE TYPICAL AND NOT SO TYPICAL STAGES

This workshop will explore the various stages of early childhood development (ages 0-5), specifically how early trauma may impact the development of future relationships. The presenter will provide practical strategies to both recognize and intervene when development appears to be off track. **(Also approved for social worker CEUs.)**

Trainer: Rebecca Sloan. MSW, LISW

Rebecca Sloan MSW, LISW is the Trauma Informed Care Consultant at Orchard Place/ Child Guidance Center, Inc. Ms. Sloan also currently supervises the Early childhood Team at OPICGC and provides assessment and therapy for children ages zero to seven and their families. She earned her BS in Child and Family Services from Iowa State University and her Master of Social Work degree from the University of Iowa. Ms. Sloan was formerly a licensed foster parent beginning in 1997 and has provided respite care for many children of various ages. Ms. Sloan's field expertise includes the evaluation, assessment, and treatment of children with special needs ages birth to 21, chronically mentally ill adults, mentally retarded sex-offenders, and children with MR and mental health diagnoses. She currently specializes in early childhood mental health.
